Assistive Listening Technology Clinics

2018 Timetable

At the NDA, we consider assistive technology as the means of moving from OK hearing to **living** with the fullest most vibrant sound your hearing will allow.

Hearing **music**, **TV**, **telephones**, or in **lectures** can be difficult or unsatisfactory, even with the latest most advanced aids. That is why we sometimes need additional equipment to make that essential difference.

For phones, TV listeners and listening in social situations, we hold open clinics every Thursday morning at our Thorpe Road offices and on some Wednesdays at the the ACT Centre in Aylsham and Community House in Great Yarmouth

The NDA hold open assistive listening technology clinics where you can get impartial advice about equipment to supplement your hearing aids to improve access to work, education or social life.

To find out more or book an appointment, please ring the NDA on:

For listening in the workplace, higher education and more complex issues we offer advice by appointment at the Cromer Hospital or at Thorpe Road.
