*Medical
Equipment
£4,480*

**Vehicle Cost
& Conversion
£52,178**

**To buy a fully-equipped
Aural Care mobile clinic to
serve the people of Norfolk.**

Your support could help us reach thousands in the Norfolk community including the elderly, less able, young and vulnerable people, to provide earwax removal using microsuction performed by qualified nurses.

DID YOU KNOW?

Earwax is produced by glands in the ear canal, everyone has it. It protects the inner ear, keeping the ear canal clean and healthy. It's usually discarded along with debris from the ear. However, earwax can build up causing hearing difficulty, pain and discomfort. **Hearing loss due to impacted earwax can be frustrating and stressful. If left untreated, it can lead to social isolation and depression.**

**THIS IS PREVENTABLE IF WE COULD
REACH THOSE WHO NEED OUR HELP.**
